

# COUNTY OF SAN DIEGO NEWS RELEASE

**FOR IMMEDIATE RELEASE**

## **MISSION ROAD IMPROVEMENTS ON SCHEDULE**

***Roadwork Resumes After Private Utility Crews Install Phone, Cable, Electrical Lines***

Although motorists may notice minimal roadwork right now, the County of San Diego is on schedule to finish widening Mission Road from Pepper Tree Lane to Clemmens Lane in Fallbrook this summer. Roadwork will resume after AT&T, Adelphia and SDG&E finish placing their wires into new underground conduits.

While utility companies convert from overhead to underground service, the County's contractor, Daley Construction, is responsible for maintaining traffic control and water pollution control devices.

Construction work hours are Monday through Friday from 7:00 am to 4:00 pm. One lane of traffic in each direction and one 2-way left-turn lane will be kept open.

The \$3.4 million project includes: widening Mission Road from three to five lanes; relocating on-street parking from the west to the east side; curb, gutter and drainage improvements; sidewalk and bicycle route signs; intersection improvements; and placing existing utilities underground.

For project inquiries, concerns, or to be added to the monthly update distribution list, please call the Project Hotline at 1-888-ROADWRK (1-888-762-3975).
